### Company Name:
Gansu Desert Control Research Institute

<table>
<thead>
<tr>
<th>Headquarter Location:</th>
<th>Gansu, China</th>
</tr>
</thead>
<tbody>
<tr>
<td>Founding Year:</td>
<td>Before 1970</td>
</tr>
<tr>
<td>Number of Employees:</td>
<td>135</td>
</tr>
</tbody>
</table>

**Short Introduction:**
Gansu Desert Control Research Institute (GDCRI), founded in 1959, is one of the earliest research institutes in China specializing in desertification combating, eco-environment protection and exploitation & utilization of desert resources. It has been engaged in the research of theory and technologies on prevention and control of land degradation and integrated desert control, etc.

**Main Activities/Technologies:**
- Agriculture Engineering
- Water Resource Management
- Geographical Information Systems
- Air Environment
- Environmental Engineering
- Land Reclamation
- Terrestrial Environment
- New Materials
- Consulting and Advice
- Internet Technologies and Services

**Main Products/Services:**
- Engineering design
  - Engineering design is made by has the corresponding qualification of project design, according to eco-restoration and desert control, scale and survey report to calculate, structure, such as drawing, complete the use of the scheduled period to realize project content due to the use function, safe and reliable function, and economic targets, beautiful design.
- Construction engineering project management
  - Engaged in project management of enterprise, authorized by project owner side, whole process of eco-land reconstruction, integrated desert control or phased professional management and service activities
- Sales of environmental protection equipment, and materials
  - Sales of environmental protection and desert control equipment, materials, etc.

**Interests to Negotiate:**
- Integrated desert control, environmental protection, environmental development direction
- Looking for a partner on desertification combating and arid ecology science and technology
Han's Laser Technology Industry Group Co., Ltd.

Company Name: Han's Laser Technology Industry Group Co., Ltd.

Headquarter Location: Shenzhen, PR China

Founding Year: 1996

Number of Employees: 8000

Short Introduction:
Han’s Laser Technology Industry Group Co., Ltd, a public company that is established in 1996, has now become the flagship of Chinese national laser industry and the world’s famous laser equipment manufacturer. Han’s Laser went public in Shenzhen Stock Exchange Market in 2004. And so far, its market value reaches more than 2.15 billion USD.

Han’s Laser has more than 200 machine models, including Laser Engraving/Marking Series, Laser Welding Series, Laser Cutting Series, Sub-Surface Engraving Series, Laser Display Series, and so on. All these equipments have been widely used in the production of electronic appliances, integrated circuits, telecommunication equipments, computers, auto parts, glass and optical units, construction materials, medical devices, jewelries, packaging materials, crafts, fashion and clothing, urban illumination and other fields.

Based on customer-oriented marketing strategy, Han’s Laser had setup 7 regional centers and more than 105 service offices all over China. Moreover, in order to give satisfying services to international customers, Han’s Laser had founded more than 9 oversea branches and has qualified agents in more than 20 countries. All these branches and offices have qualified technicians and engineers providing in-time and effective pre-sale, sale and after-sale services.

Main Activities/Technologies:
- Electronic Circuits
- Electrical Power Science and Technology
- Energy Saving and Conservation
- Off-shore Drilling and Production Technologies
- Renewable Energies
- Robotics and Plant Automation
- Materials
- Sensors and Instrumentation
- Welding Technologies
- Lasers and Masers
- LED / LD Technologies

Gansu Desert Control Research Institute

Main Products/Services:
- Laser Ablation Machine
- Automatic series welding machine
- Household PV System
- Power Station Self-cleaning
- On-Grid inverter

Interests to Negotiate: Renewable energy. For example: PV, Wind power generation

Main Products/Services:
- Engineering design:
  Engineering design is made by has the corresponding qualification of project design, according to eco-restoration and desert control, scale and survey report to calculate, structure, such as drawing, complete the use of the scheduled period to realize project content due to the use function, safe and reliable function, and economic targets, beautiful design.

- Construction engineering project management:
  Engaged in project management of enterprise, authorized by project owner side, whole process of eco-land reconstruction, integrated desert control or phased professional management and service activities

- Sales of environmental protection equipment, and materials:
  Sales of environmental protection and desert control equipment, materials, etc.
Company Name: Beijing Khan Wind Technology Co., Ltd

Headquarter Location: Beijing, China
Founding Year: 2005
Number of Employees: 26

Short Introduction: A high-tech and low-carbon pioneer since 2005, Beijing Khan Wind Technology Co., Ltd (hereinafter referred to as ‘Khan Wind’) advocating “Innovation driven, green development” business philosophy is committed to wind equipment development and manufacture, wind composite material R&D and manufacture, wind farm support services and energy storage.

Main Activities/Technologies:
- Renewable Energies

Main Products/Services:
- Bamboo composite wind turbine blade: Self innovated blade for wind turbines, applying Chinese traditional bamboo material into industry. Lower cost, higher generation and environment protective.
- Wind farm equipment spare parts: Supplying spare parts for wind equipment.
- Technical services for wind farm: Providing technical services for wind farms and wind equipment.

Interests to Negotiate:
- Application of new composite materials to wind turbine equipment
- To find Material suppliers, Wind equipment manufacturers, Wind farm developers, etc.
### Company Name:
Beijing Newatt Environment Engineering Company Ltd

<table>
<thead>
<tr>
<th>Headquarter Location:</th>
<th>Beijing, China</th>
</tr>
</thead>
<tbody>
<tr>
<td>Founding Year:</td>
<td>2003</td>
</tr>
<tr>
<td>Number of Employees:</td>
<td>300</td>
</tr>
</tbody>
</table>

### Short Introduction:
Newatt specializes in project, research, consultation, investment, design and operation of equipments and facilities for construction of benign mechanism of water ecosystem and water pollution prevention. Owning multiple technical expertise and patents, Newatt takes featured process design of water and the high-end equipments of environmental protection as main business.

### Main Activities/Technologies:
- Water Resource Management
- Hydrology and Water Resources
- Environmental Engineering
- Terrestrial Environment
- Waste Treatment

### Main Products/Services:
- **Water supply and treatment:** Developing and deploying efficient, low-energy and easy-to-use technologies, including anaerobic-aerobic coupling biological filter, new biological activated carbon reactor, immobilized enzyme and Carrousel®3000 oxidation ditch.
- **Treatment on river and lake ecology:** Devoting to ecological treatment and water quality security, Newatt develops corresponding technologies and promotes intensive development and industrial upgrading.
- **Unpowered scattered point source treatment:** Supporting a widespread use of non-powered biological purification tanks, subsurface flow constructed wetlands and improved soil infiltration system.
- **Water source safety management:** Using biosensors and water quality monitoring, Newatt establishes a network of monitoring stations and implements emergency management plans.
- **Civil waste treatment:** Focus on energy-saving technologies: ecological waste composting treatment and garbage incineration power generation.

### Interests to Negotiate:
- Introduction of advanced water treatment concepts and knowledge theories of Newatt.
- Get the needs of environment protection of Iran and seek business opportunities with outstanding enterprises of Iran.

<tr>
<td>Short Introduction:</td>
<td>Beijing Westron Technology Co., Ltd. was founded in 2004 April and it is featured in IT network, security and industrial automation fields. As a high-tech enterprise, Westron takes &quot;IT information products division&quot;, &quot;energy-saving emission reduction products division&quot; and &quot;health department&quot; as main business.</td>
</tr>
</tbody>
</table>
| Main Activities/Technologies: | • Air Environment  
• Environmental Certification  
• Environmental Engineering  
• Health & Pharmaceuticals |
| Main Products/Services:     | • Pure-S75  
Healthy drinking water device for household use  
• Pure-xyys-01  
Healthy drinking water equipment for the school  
• pure-sy-400  
Healthy drinking water device used in the enterprise |
| Interests to Negotiate:     | • Introduction of productions of water purification for health department.  
• Seek for sales partner |
**Company Name:**
Tzu chi feng (Beijing) environment technology Group co., LTD

<table>
<thead>
<tr>
<th>Headquarter Location:</th>
<th>Beijing, China</th>
</tr>
</thead>
<tbody>
<tr>
<td>Founding Year:</td>
<td>2014</td>
</tr>
<tr>
<td>Number of Employees:</td>
<td>89</td>
</tr>
</tbody>
</table>

**Short Introduction:**
Beijing peak is a collection of water treatment technology research and development of environmental protection, engineering design, equipment manufacture, installation, sewage treatment plant operation management, engineering construction consulting service is a body comprehensive enterprise. Wu Xinglu 7 brand headquarters is located in Tongzhou district of Beijing firm town, covers an area of 27 Main Activities/ Technologies:

| Civil Engineering |
| Architecture |
| Construction Engineering |
| Construction Equipment and Materials |
| Acoustic Pollution |
| Air Environment |
| Environmental Engineering |
| Terrestrial Environment |
| Waste Treatment |
| CAD / CAM |
| Machine Tools |
| Manufacturing and Automation Technologies |
| Coating |
| New Materials |
| Mechanical Engineering |
| Mechatronics |
| Pumps, Filters, Pipes, Tubings, Fittings |
| Welding Technologies |
| Wires and Cables |
| Consulting and Advice |
| Industrial Design |

**Main Products/Services:**
- Engineering design
- Construction engineering project management
- Sales of environmental protection equipment, and materials

**Interests to Negotiate:**
- Environmental protection, environmental development direction
- Want to through this meeting cognitive enterprises from all walks of life, look to whether can to dabble in other industries, look to whether can enter the Iranian market

**Main Products/Services**

**Engineering design:**
*Engineering design design is made by has the corresponding qualification of project design, according to the engineering use, scale and survey report to calculate, structure, such as drawing, complete the use of the scheduled period to realize project content due to the use function, safe and reliable function, and economic targets, beautiful design.*

**Construction engineering project management:**
*Engaged in project management of enterprise, authorized by project owner side, whole process of engineering construction or phased professional management and service activities*

**Sales of environmental protection equipment, and materials:**
*Sales of environmental protection equipment, special equipment, general equipment, mechanical equipment and accessories, metal materials, etc*
**Institute Name:**
Institute of Forestry and Animal Husbandry Ecological Research on the Xinjiang Uygur Autonomous Region Karamay City
